What community issues are most important to you in Koreatown? Are there any amenities we can incorporate in the project to address them?

- Koreatown is dense and walkable, but lacks parks, open space, and areas to gather.
- Homelessness. We have too many people living on our streets and enough underutilized parking lots, or vacant lots, that we should be building permanent supportive housing somewhere in the neighborhood

Survey   Resources

In the midst of the pandemic, UCLA students have never been more isolated from each other, making it difficult to gauge the wellness of the student body. In a time where it is so easy to feel disconnected, we want to ask:
